Bringing Your Special Events To Life

Wedding Day Services

I am so excited to be working with you to help you plan your wedding day.

By now, you will hopefully have had an opportunity to log onto the planning portal and access your personal wedding planner. If this seems daunting, I am always a telephone call or a zoom away and we can fill it in together.

In addition to planning your wedding, I offer further services that are designed to add a real wow factor to your reception and to provide a lasting memory for you and your guests.

While there are countless possibilities, here is a taster of the options available that have been curated to enhance and elevate your big day.

UPLIGHTING

What can Uplighting do for your wedding?

Uplighting is perfect for enhancing your event, setting every scene for your special day.

It can draw attention to key areas of your reception venue, elegantly highlighting carefully selected architectural features; perfect for when your guests arrive for drinks. It can transform the reception room and create an eye-catching atmosphere as people sit down for the wedding breakfast.

Sophisticated lighting will beautifully create the romantic mood of your first dance, placing the spotlight on you, the happy couple. Then, as the party gets going, it will change colour to the beat of the music, providing a focus on the dance floor to let your guests know that it is time to party.

UPLIGHTING

THE SELFIE WIZARD

What is The Selfie Wizard?

It is the perfect way to engage your guests, capturing those informal, fun images taken during the day all in one place.

The Selfie Wizard is a simple and easy-to-use system that allows your guests to upload photos from their mobile phones to display on a dedicated screen. This modern-day alternative replaces old-fashioned disposable cameras on tables, and delivers instant gratification on the day itself.

It is a great centrepiece and a focal point, especially for that period after the ceremony and before the wedding breakfast. It is also perfect for capturing all the moves when your guests are on the dancefloor!

THE SELFIE WIZARD

L.O.V.E LETTERS

What are Love Letters?

Your love is a beacon that lights up your wedding, a beacon that has drawn all your guests to share your day with you.

Our hugely popular illuminated Love Letters can be strategically placed to focus on a key area in the room, or in a separate area created for the perfect selfie opportunity. It is your wedding day and everyone will want to share your love.

Our visually eye-catching Love Letters have been specially designed and developed to take the wow factor to another level. Fully controllable, our Love Letters can be programmed to complement the colours of the bridal theme. They feature adjustable illumination to ensure they are brilliantly bright when required and less so, when appropriate, during the event.

Working in tandem with our additional lighting services, they can also be programmed in various patterns and colours to add even more excitement to the dancefloor.
